WHAT IS THE PRODUCT?

Type:

Umbrella investment company with variable capital (société d'investissement à capital variable) incorporated as a public limited company (société anonyme) in the Grand Duchy of Luxembourg, qualifying as an undertaking for collective investment in transferable securities (UCITS) under Part I of the Luxembourg Law dated December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The SICAV's liquidation shall be decided by the general meeting of shareholders, in accordance with the applicable law and the Articles of Incorporation. The Company may also enter into liquidation by judicial decision according to the Law of December 17, 2010. The Board of Directors may decide to liquidate the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Sub-Fund, expressed in Euro, aims to achieve an absolute positive return for investors over the long term.

The Sub-fund will invest primarily in a portfolio of equity transferable securities listed on a stock exchange or dealt in on another regulated market worldwide.

The Sub-fund implements an equity market neutral investment strategy consisting in buying equities that are expected to outperform the equity market and selling equity index futures.

The strategy will be implemented either synthetically, through the negotiation of OTC derivatives, or directly through an investment in shares or equity equivalent securities of companies in any country, as well as in financial derivative instruments on this type of assets.

The Sub-Fund may invest up to 30% of its net asset value in equity transferable securities issued by entities domiciled in the emerging markets.

The Sub-Fund may invest without limitation in securities denominated in currencies other than the reference currency (EURO). The currency exposure of the Sub-Fund is flexibly managed.

The Sub-fund exposure to the above-mentioned asset classes achieved by indirect investments through units/shares of UCITS and/or other UCIs will not exceed 10% of the Sub-fund's net assets.

To enhance investment returns, the Investment Manager may use both long and short positions (achieved through the use of financial derivative instruments) in order to vary market allocations in response to market conditions and opportunities. As a result the Sub-fund may have net long or net short exposure to certain markets from time to time.

The Sub-Fund may use financial derivative instruments for the investment and for risk hedging purposes.

The Sub-Fund is not managed in reference to a benchmark. The Sub-Fund is actively managed.

This is a capitalization class.

You may request to redeem the share held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors who look for long term investments. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses. This share-class is reserved to institutional investors.
