You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THE PRODUCT?

Type:

Umbrella investment company with variable capital (société d'investissement à capital variable) incorporated as a public limited company (société anonyme) in the Grand Duchy of Luxembourg, qualifying as an undertaking for collective investment in transferable securities (UCITS) under Part I of the Luxembourg Law dated December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The SICAV's liquidation shall be decided by the general meeting of shareholders, in accordance with the applicable law and the Articles of Incorporation. The Company may also enter into liquidation by judicial decision according to the Law of December 17, 2010. The Board of Directors may decide to liquidate the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Ailis ESG EMU Government Bond IG 1-3 Sub-fund, measured in Euro, aims to provide stable returns by tracking the performance of the index "Bloomberg MSCI Euro Treasury IG 1-3 Years ESG Index", in EUR (the "Index"), minimising as far as possible the tracking error between the Sub-fund's performance and that of the Index expressed in Euro. The tracking error between the Sub-fund and the Index is expected to be below 1% annualised TEV under normal market conditions.

The Index, which constitutes the "Exposed Strategy", is published by Bloomberg, acting as benchmark administrator (the "Benchmark Administrator") and it is a fixed income index designed to represent the performance of the government bonds issued in the Eurozone, giving more weight to countries having Environment, Social and Corporate Governance (ESG) rating equal or above AA.

The Sub-fund invests in debt securities and aims to deliver returns as closely as possible as the Index. In seeking to achieve its investment objective, the Sub-fund will primarily invest directly in government bonds, as further detailed below.

The Sub-fund will invest its net assets:

- Up to 10% in shares/units issued by UCITS or other UCIs. At least 51% of such indirect investments in UCITS or other UCIs shall be in units / shares of UCITS / UCI that promote, among other, environmental or social characteristics, and fall within the scope of article 8 of the Regulation (EU) 2019/2088 ("SFDR").

- Up to 20% in Cash and deposits at sight;

- Up to 100% in futures, forwards, options, and swaps for cash management purposes, or as an alternative to acquiring the underlying or the related securities where such investment provides an exposure to the Index or to the securities comprised in the Index, and may be accomplished in a more efficient or less costly way through the use of derivatives.

The Sub-fund will not invest in Contingent Convertibles (CoCos) nor asset backed securities (ABS) or mortgage-backed securities (MBS).

The Sub-fund may use financial derivative instruments for the purpose of investment and risk hedging purposes.

To implement the investment policy of the Sub-fund, the Investment Manager of the Sub-fund's portfolio will be able to combine and/or switch among several index replication methods as described below, to ensure optimum management of the Sub-fund :

1) Full replication: The Sub-fund will achieve exposure to government bonds issued in the Eurozone, by investing at least 90% of its net assets in debt securities included in the Index;

2) Optimized replication: The Sub-fund will achieve exposure to government bonds issued in the Eurozone subject to Environmental, Social and Corporate Governance (ESG) criteria, by investing in a representative sample of debt securities included in the Index. The remaining assets may be invested in debt securities other than those referred to in the core policy, money market instruments and financial derivative instruments to achieve exposure to a tracker index

3) Swap based replication: The Sub-fund will enter into one or more total return swap transactions ("TRS") with one or more swap counterparties, for the purposes of achieving exposure to the Index and/or for efficient portfolio management purposes. The swap transaction may, at the discretion of the Investment Manager, be entered into either an unfunded or a fully funded swap structure. In case the swap based replication method is chosen, TRS are used on a continuous basis.

The sub fund is passively managed.

The Sub-fund has been categorised as an ESG Promotion Strategy Sub-fund, in accordance with article 8 of the SFDR.

This is a capitalization class.

You may request to redeem the share held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors looking for short term investments and have a preference for sustainable ESG strategies. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing

the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses. This class is reserved to institutional investors.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for a minimum of 2 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back. The redemption price may, depending on the evolution of the net asset value, be higher or lower than the paid issue price.

Specific reasons, such as change restrictions or circumstances outside the control of the Depository Bank, may render impossible the transfer of redemption amount in the country where the redemption is requested.

In case of mass redemptions, the Management Company may decide to suspend the redemptions until it has sold the necessary assets.

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 2 out of 7, which is a low-risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the fund to pay you.

Other risks materially relevant not included in the SRI: Counterparty Risk, Credit Risk, Derivatives Risk, ESG Risk, Operational risk, This product does not include any protection from future market performance. Please refer to the 'Risk' section of the prospectus for more details.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between 2014 - 2024.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF FIDEURAM ASSET MANAGEMENT (IRELAND) DAC IS UNABLE TO PAY OUT?

There is no compensation or guarantees for investors in the event of the insolvency of the Management company. It is specified that each mutual investment fund constitutes an autonomous and separate asset in all respects from the assets of the Management company and from that of each investor as well as from any other assets managed by the same Management company. Furthermore, the Management company is liable exclusively for the obligations contracted on behalf of the sub-fund with the assets of the same fund. On those assets actions by creditors of the Management company or creditors of the depository or sub-depository are not permitted. The creditors of individual investors are permitted to take action only on the units/shares held by the individual investors. The Management company may in no case use, in its own interest or in the interest of third parties, the assets belonging to the managed funds.

WHAT ARE THE COSTS?

The person selling or advising this product may charge other costs, in which case this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment: 10 000 EUR	If you exit after 1 year	If you exit after 2 years
Total Costs	359 EUR	389 EUR
Annual Cost Impact*	3.6%	2%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.3% before costs and -2.2% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.01% of the amount you pay in when entering this investment (including fixed fees)	301 EUR
Exit costs	0.05% of your investment before it is paid out to you (including fixed fees)	5 EUR
Ongoing costs		
Management fees and other administrative or operating costs	0.41% of the value of your investment per year. This amount is based on costs incurred for the custody, the administration and the management of the product.	51 EUR
Portfolio transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 2 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the sub-fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. If the holding period is shorter than the recommended minimum, this may have a negative impact on the sub-fund's risk and reward profile. We recommend that you discuss this with your advisor. You may request to redeem the units held at any moment, and on any business day, in accordance with the Prospectus. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

Any complaints must be sent by the investor to Fideuram Asset Management (Ireland) DAC in writing and according to one of the following methods indicated: registered letter with return receipt; e-mail to the address: info@fideuramireland.com. Complaints are considered validly received by the Management Company if they contain at least the following information: identification details of the person submitting the complaint; reasons for the complaint, details of the economic damage; sign-off or other element allowing for the identification of the investor. Complaints can also be sent by the investor to the authorized Distributors in the countries where the units of the sub-fund are distributed.
