WHAT IS THE PRODUCT?

Type:

Mutual Investment Fund under Luxembourg Law governed by Part I of the Law of December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The Fund is established for an unlimited duration; it may be dissolved at any time with the mutual approval of the Management Company and the Depositary Bank. The Fund shall be liquidated in the cases provided for in Article 22 of the Law of December 17, 2010. The Management Company may decide to enter into liquidation the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Sub-Fund, expressed in Euro, aims to provide a high level of income and generate modest capital appreciation.

The Sub-Fund intends to invest in financial instruments within the global financial sector, including fixed and variable interest securities (for example, corporate bonds, which may be rated investment grade or below investment grade), hybrid securities (instruments that combine the characteristics of bonds and shares), preference shares, subordinated debt, money market securities and deposits. During times of high levels of market movements (volatility) the Fund may invest substantially in bank deposits. The Sub-Fund's investments in contingent convertible bonds (as defined by European Securities and Markets Authority) may not exceed 50% of the total Net Asset Value of the Sub-Fund.

The Sub-Fund may not purchase ordinary shares, however the SubFund may acquire and hold ordinary shares where such ordinary shares are acquired by way of conversion from another security held by the Sub-Fund. The Investment Manager will typically seek to take positions in debt securities and preference shares of companies exhibiting one or more of the following characteristics: (i) change in revenue growth prospects; (ii) change in projected operating expenses; (iii) change in balance sheet quality; (iv) speculation regarding a possible sale, disposal or acquisition; (v) change in execution capability and/or strategic direction due to a change in management; (vi) change in capital discipline; (vii) change in regulation; (viii) a change in overall risk appetite; or (ix) a change in valuation methodology. The Sub-Fund may invest in foreign exchange forwards (contracts to exchange foreign currencies at an agreed date in the future) for hedging and currency risk management purposes. The Sub-Fund may use currency hedging (the technique of buying or selling currencies to minimize fluctuations in non-Euro currency investments resulting from foreign exchange movements). The Sub-Fund may enter into financial derivative instruments for hedging purposes. These financial derivative instruments will include swaps, options, futures and forwards contracts. There is no guarantee that this will be successful. Any income that may arise in the Sub-Fund will be reinvested in the Sub-Fund.

The Sub-Fund is actively managed. The Sub-Fund is not managed in reference to a benchmark.

The Sub-fund has been categorised as an ESG Promotion Strategy Sub-fund in accordance with article 8 "SFDR"

This is a distribution class: the net incomes of the Sub-Fund will be distributed in accordance with the Prospectus.

You may request to redeem the units held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors who look for medium term investments and have a preference for sustainable ESG strategies. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between 2014 - 2024.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF FIDEURAM ASSET MANAGEMENT (IRELAND) DAC IS UNABLE TO PAY OUT?

There is no compensation or guarantees for investors in the event of the insolvency of the Management company. It is specified that each mutual investment fund constitutes an autonomous and separate asset in all respects from the assets of the Management company and from that of each investor as well as from any other assets managed by the same Management company. Furthermore, the Management company is liable exclusively for the obligations contracted on behalf of the sub-fund with the assets of the same fund. On those assets actions by creditors of the Management company or creditors of the depositary or sub-depositary are not permitted. The creditors of individual investors are permitted to take action only on the units/shares held by the individual investors. The Management company may in no case use, in its own interest or in the interest of third parties, the assets belonging to the managed funds.

WHAT ARE THE COSTS?

The person selling or advising this product may charge other costs, in which case this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment: 10 000 EUR	If you exit after 1 year	If you exit after 4 years
Total Costs	260 EUR	828 EUR
Annual Cost Impact*	2.6%	1.8%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 3.7% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.01% of the amount you pay in when entering this investment (including fixed fees)	101 EUR
Exit costs	0.05% of your investment before it is paid out to you (including fixed fees)	5 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.25% of the value of your investment per year. This amount is based on costs incurred for the custody, the administration and the management of the product.	126 EUR
Portfolio transaction costs	0.10% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	10 EUR
Incidental costs taken under specific conditions		
Performance Fee	10% of the excess between the new High on High (HoH) at Unit-Class level increased by the hurdle rate and the last HoH increased by the hurdle rate, during the previous five years. The hurdle rate is of 1.40%. The performance fee is calculated/accrued daily and paid annually. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	19 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 4 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the sub-fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. If the holding period is shorter than the recommended minimum, this may have a negative impact on the sub-fund's risk and reward profile. We recommend that you discuss this with your advisor. You may request to redeem the units held at any moment, and on any business day, in accordance with the Prospectus. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

Any complaints must be sent by the investor to Fideuram Asset Management (Ireland) DAC in writing and according to one of the following methods indicated: registered letter with return receipt; e-mail to the address: info@fideuramireland.com. Complaints are considered validly received by the Management Company if they contain at least the following information: identification details of the person submitting the complaint; reasons for the complaint, details of the economic damage; sign-off or other element allowing for the identification of the investor. Complaints can also be sent by the investor to the authorized Distributors in the countries where the units of the sub-fund are distributed.
