WHAT IS THE PRODUCT?

Type: Mutual Investment Fund under Luxembourg Law governed by Part I of the Law of December 17, 2010.

Term: This sub-fund is not subject to any fixed term. The Fund is established for an unlimited duration; it may be dissolved at any time with the mutual approval of the Management Company and the Depositary Bank. The Fund shall be liquidated in the cases provided for in Article 22 of the Law of December 17, 2010. The Management Company may decide to enter into liquidation the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Sub-Fund has been categorized as an ESG Promotion Strategy Sub-Fund in accordance with article 8 of the SFDR. The Sub-Fund, expressed in Euro, aims to outperform the benchmark by investing essentially in stocks listed or dealt in on another regulated market issued by entities which comply with Environmental, Social and Governance ("ESG") criteria, and, whose assets are mainly exposed to the economy of Brazil or equity related derivative contracts of companies of any market capitalization and, in particular, it mainly invests in: a) companies incorporated in Brazil which comply with ESG criteria; b) companies not incorporated in Brazil but either (i) carrying out a predominant proportion of their business activity in such country, or (ii) being holding companies which predominantly own companies incorporated in such country, and which comply with ESG criteria; The Management Company's ESG criteria analysis incorporates elements of negative and positive screening alongside general and security specific Socially Responsible Investing ("SRI") / ESG-related analysis and ultimately, in alignment with the investment objective and policy of the sub-fund, The detailed ESG criteria and exclusions applied are available in the Investment Policy of the Sub-Fund in the Prospectus. The Sub-Fund may also invest in shares/units of funds. The Sub-Fund may use financial derivative instruments for the purpose of risk hedging and for investment purposes. The Sub-fund is actively managed. The benchmark of the Sub-Fund consists of the index "MSCI Brazil 10-40 Price Return in local currency (Brazilian Real) and converted into EUR", which is used in the investment screening process and for portfolio construction. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a considerable part of the investments of the Sub-Fund will be components of the benchmark and extent to which the composition of the portfolio deviate from that of the benchmark in terms of weighting will be limited. However, from time to time, performance may differ, as risk limits allow to deviate from the benchmark composition, investing in securities not included in the benchmark and using alternative weighting of securities to the benchmark. This is a capitalization Unit-Class which reinvests all income generated by the Sub-Fund. You may request to redeem the units held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors who look for long term investments and have a preference for sustainable ESG strategies. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between 2014 - 2024.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF FIDEURAM ASSET MANAGEMENT (IRELAND) DAC IS UNABLE TO PAY OUT?

There is no compensation or guarantees for investors in the event of the insolvency of the Management company. It is specified that each mutual investment fund constitutes an autonomous and separate asset in all respects from the assets of the Management company and from that of each investor as well as from any other assets managed by the same Management company. Furthermore, the Management company is liable exclusively for the obligations contracted on behalf of the sub-fund with the assets of the same fund. On those assets actions by creditors of the Management company or creditors of the depositary or sub-depositary are not permitted. The creditors of individual investors are permitted to take action only on the units/shares held by the individual investors. The Management company may in no case use, in its own interest or in the interest of third parties, the assets belonging to the managed funds.

WHAT ARE THE COSTS?

The person selling or advising this product may charge other costs, in which case this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment: 10 000 EUR	If you exit after 1 year	If you exit after 5 years
Total Costs	361 EUR	1 535 EUR
Annual Cost Impact*	3.6%	2.8%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.1% before costs and 1.3% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.01% of the amount you pay in when entering this investment (including fixed fees)	101 EUR
Exit costs	0.05% of your investment before it is paid out to you (including fixed fees)	5 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.75% of the value of your investment per year. This amount is based on costs incurred for the custody, the administration and the management of the product.	177 EUR
Portfolio transaction costs	0.28% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	28 EUR
Incidental costs taken under specific conditions		
Performance Fee	20% of the positive difference between the performance of the Sub-Fund/Unit-Class and the benchmark (as indicated in the Sub-Fund's investment policy) over the calendar year. The performance fee is calculated/accrued daily and paid annually. A performance fee may be paid even when the sub-fund overperforms the benchmark but with a negative absolute performance. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	51 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 5 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the sub-fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. If the holding period is shorter than the recommended minimum, this may have a negative impact on the sub-fund's risk and reward profile. We recommend that you discuss this with your advisor. You may request to redeem the units held at any moment, and on any business day, in accordance with the Prospectus. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

Any complaints must be sent by the investor to Fideuram Asset Management (Ireland) DAC in writing and according to one of the following methods indicated: registered letter with return receipt; e-mail to the address: info@fideuramireland.com. Complaints are considered validly received by the Management Company if they contain at least the following information: identification details of the person submitting the complaint; reasons for the complaint, details of the economic damage; sign-off or other element allowing for the identification of the investor. Complaints can also be sent by the investor to the authorized Distributors in the countries where the units of the sub-fund are distributed.
