Contact: +352 1- 6738003

Competent Authority: Fideuram Asset Management (Ireland) dac is authorised in Ireland and regulated by Central Bank of Ireland as a Management Company as defined in Article 2(1), point (b), of Directive 2009/65/EC. This PRIIP is a Luxembourg UCITS managed by Fideuram Asset Management (Ireland) dac under the freedom to provide services in Luxembourg in accordance with Article 16 of Directive 2009/65/EC.

This key information document is valid as at 2024-05-31.

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THE PRODUCT?

Type:

Umbrella investment company with variable capital (société d'investissement à capital variable) incorporated as a public limited company (société anonyme) in the Grand Duchy of Luxembourg, qualifying as an undertaking for collective investment in transferable securities (UCITS) under Part I of the Luxembourg Law dated December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The SICAV's liquidation shall be decided by the general meeting of shareholders, in accordance with the applicable law and the Articles of Incorporation. The Company may also enter into liquidation by judicial decision according to the Law of December 17, 2010. The Board of Directors may decide to liquidate the sub-fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the sub-fund is less than a minimum level for the sub-fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The sub-fund is poised to take advantage of short-term market opportunities by shifting exposures based on short term market forecast or by taking a hedge against short term market risks.

The sub-fund will invest in a wide range of equity and financial derivative instruments, that give exposure to equity as well as fixed income assets, with the aim of generating an absolute positive performance.

The sub-fund has maximum flexibility to perform indirect investments through financial derivative instruments in a broad range of sectors and in any geographical region including emerging markets.

The sub-fund may invest up to 100% of its net assets in indirect investments in emerging markets and up to 50% of its net assets, through the use of financial derivative instruments, in Chinese equities denominated in onshore or offshore Renminbi.

The sub-fund will make extensive use of financial derivative instruments for investment purposes that may generate a high level of gross leverage such as equity linked unfunded Total Return Swaps, as well as interest rate swaps, credit default swaps, TRS and foreign exchange derivatives which may be used with a substantial level of gross leverage in order to generate the desired level of return.

The sub-fund may also use financial derivative instruments for taking long and short positions, which may increase its level of risk, as well as for hedging and efficient portfolio management purposes, which may contribute to reducing the sub-fund's level of risk.

The sub-fund may also invest directly in debt and debt-related instruments for cash management purposes as follows:

- up to 100% of its net assets in investment grade debt securities issued by OECD countries or supranational entities;
- up to 50% of its net assets in investment grade debt securities issued by corporation, governments and government related issuers in both developed and emerging markets;
- up to 10% of its net assets in sub-investment grade debt securities;
- up to 10% (cumulatively) of its net assets in ABS and MBS
- up to 10% (cumulatively) of its net assets in CoCos, convertibles and structured bonds in any geographical region including emerging markets;
- up to 10% of its net assets in units/shares of UCITS and/or other UCIs including ETFs.
- up to 10% of its net assets in unrated debt securities.

The sub-fund is actively managed. The sub-fund is not managed in reference to a benchmark.

You may request to redeem the share held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors who look for long-term investments. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

Depository: STATE STREET BANK INTERNATIONAL GmbH, Luxembourg Branch. Copies in English of the latest annual and half-yearly reports, and of the Prospectus may be obtained free of charge at any moment at the registered office of the Management Company, at the offices of STATE STREET BANK INTERNATIONAL GmbH, Luxembourg Branch, of the SICAV, and of the Distributor. They are also available on the website www.fideuramassetmanagement.ie. The latest price of the unit is available every business day in Luxembourg at the offices of the Depository and on the website www.fideuramassetmanagement.ie. The Remuneration policy is available on the website <https://www.fideuramassetmanagement.ie/en/policy/>. A paper copy of the summarized remuneration policy is available free of charge upon request. For information on Reg. 2019/2088 ("SFDR"), please refer to the "Sustainability" section on the website www.fideuramassetmanagement.ie. The SICAV is subject to the Luxembourg tax legislation. Said legislation may have an impact on your personal tax position.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back. The redemption price may, depending on the evolution of the net asset value, be higher or lower than the paid issue price.

Specific reasons, such as change restrictions or circumstances outside the control of the Depositary Bank, may render impossible the transfer of redemption amount in the country where the redemption is requested.

In case of mass redemptions, the Management Company may decide to suspend the redemptions until it has sold the necessary assets. The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a **medium** level, and poor market conditions could impact the capacity of the fund to pay you.

Other risks materially relevant not included in the SRI: Counterparty Risk, Credit Risk, Derivatives Risk, Operational risk,

Performance scenarios

Recommended minimum holding period: 5 years
Investment: 10 000 EUR

Scenarios

Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.

		1 year	5 years (recommended holding period)
Stress	What you might get back after costs	2 230 EUR	2 220 EUR
	Average return each year	- 77.7%	- 26%
Unfavourable	What you might get back after costs	8 340 EUR	9 100 EUR
	Average return each year	- 16.6%	- 1.9%
Moderate	What you might get back after costs	9 910 EUR	13 370 EUR
	Average return each year	- 0.9%	6%
Favourable	What you might get back after costs	12 530 EUR	15 100 EUR
	Average return each year	25.3%	8.6%

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between 2014 - 2024.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF FIDEURAM ASSET MANAGEMENT (IRELAND) DAC IS UNABLE TO PAY OUT?

There is no compensation or guarantees for investors in the event of the insolvency of the Management company. It is specified that each mutual investment fund constitutes an autonomous and separate asset in all respects from the assets of the Management company and from that of each investor as well as from any other assets managed by the same Management company. Furthermore, the Management company is liable exclusively for the obligations contracted on behalf of the sub-fund with the assets of the same fund. On those assets actions by creditors of the Management company or creditors of the depositary or sub-depositary are not permitted. The creditors of individual investors are permitted to take action only on the units/shares held by the individual investors. The Management company may in no case use, in its own interest or in the interest of third parties, the assets belonging to the managed funds.

WHAT ARE THE COSTS?

The person selling or advising this product may charge other costs, in which case this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment: 10 000 EUR	If you exit after 1 year	If you exit after 5 years
Total Costs	781 EUR	1 471 EUR
Annual Cost Impact*	7.8%	2.2%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.2% before costs and 6.0% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	6.51% of the amount you pay in when entering this investment (including fixed fees)	651 EUR
Exit costs	0.05% of your investment before it is paid out to you (including fixed fees)	5 EUR
Ongoing costs		
Management fees and other administrative or operating costs	0.70% of the value of your investment per year. This amount is based on costs incurred for the custody, the administration and the management of the product.	116 EUR
Portfolio transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	8 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 5 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the sub-fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. If the holding period is shorter than the recommended minimum, this may have a negative impact on the sub-fund's risk and reward profile. We recommend that you discuss this with your advisor. You may request to redeem the units held at any moment, and on any business day, in accordance with the Prospectus. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

Any complaints must be sent by the investor to Fideuram Asset Management (Ireland) DAC in writing and according to one of the following methods indicated: registered letter with return receipt; e-mail to the address: info@fideuramireland.com. Complaints are considered validly received by the Management Company if they contain at least the following information: identification details of the person submitting the complaint; reasons for the complaint, details of the economic damage; sign-off or other element allowing for the identification of the investor. Complaints can also be sent by the investor to the authorized Distributors in the countries where the units of the sub-fund are distributed.
